**Course Description:**

The Virginia State Driver's Education Program consists of two phases. For teenage students, the in-car phase comprises a minimum of seven periods of actual driving and seven periods of observation. Each period of instruction consists of 50 minutes of driving and 50 minutes of observation. Students aged 17 and under must complete 36 hours of a State-Approved Driver's Education program before obtaining their driver's license.

**Drivers Education Program:**

Students aged 18 and under must complete a state-approved driver's education program before obtaining a driver's license. Students aged 18 and older may hold the learner's permit for 60 days instead of completing a driver training course. However, the permit duration may be less than 60 days after completing a state-approved driver education program. The program includes 36 fifty-minute classroom periods and 14 fifty-minute in-car instruction periods (7 periods of driving and 7 periods of observation).
